

Seasonal Weight Limits

Many of the County Highways have Seasonal Weight Limits from Jan 15th to April 15th. This is done to help preserve the roads during the freeze and thaw cycles experienced this time of the year. We understand that this can be an inconvenience but our goal is to minimize these restrictions as much as possible. We would request that you respect these limits, while they are in affect. Repairing damage is expensive to the taxpayers of Effingham County.

In an effort to lessen the impact of weight limits, we will remove limits if the ground is sufficiently frozen or if all the frost is out of the ground and roads have settled back down. The County Highway Department will be posting information to our website weekly regarding when the restrictions will be in place or lifted.

Many townships have adopted current county limits, but please note this only pertains to County Highways, please contact your township road commissioner regarding any roads under their jurisdiction. If you have any questions contact the County Highway Department at 217-342-6550.

Status:

Weight Limits **WILL NOT** be enforced through February 18th, 2023
